

Global Hybrid OA Initiatives

Margarita Bläß

Heidelberg, January 2018 (updated by Sarah Brooke and MB, January 2019)

Verification of Compact articles in external workflow

1. Introduction

1.1. What is Compact?

Compact is an agreement that offers authors the opportunity to publish open access in hybrid subscription-based journals and is based on the Open Choice publishing option. The agreement combine the costs for article processing charges (APC) and access to subscription content for participating institutions. Researchers from participating institutions are able to publish their articles open access at no extra cost to them. Compact supports Gold Open Access publishing and promotes the transition to more transparent and sustainable open access publishing. Additionally it enables researchers to comply with their funders’ open access requirements.

Currently, every journal offering Open Choice is automatically part of the eight Compact agreements:

Agreement	Start date
Dutch agreement	January 2015
UK agreement	October 2015
MPG agreement	October 2015
Austrian agreement	January 2016
Swedish agreement	July 2016
Finnish agreement	October 2018
Hungarian agreement	January 2019
Polish agreement	January 2019

For more information on the copyright and license terms, and Compact in general, please refer to <https://www.springer.com/gp/open-access/springer-open-choice/springer-compact>

1.2. Guideline abstract

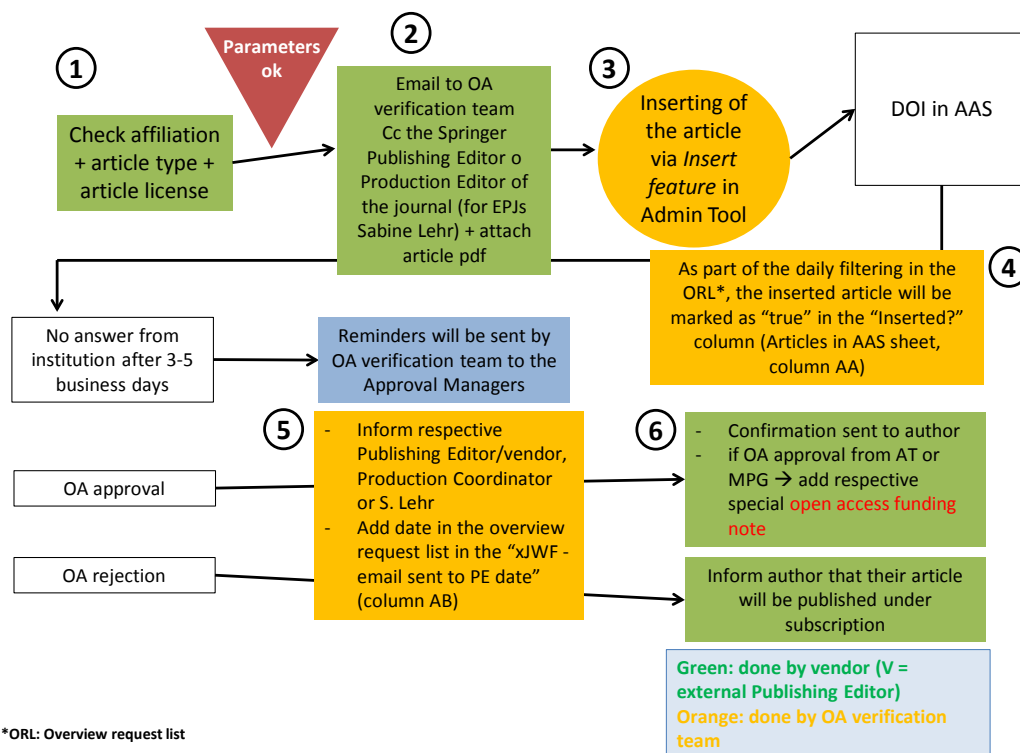

The document includes the guidelines for the identification and verification of Compact articles in the external workflow which is created for Publishing Editors, External Publishing Editors, Vendors and the OA Verification team, including a detailed overview of the identification and verification process.

The external workflow comprises journals which do not use the “standard production workflow” (i.e. *JWF/JFlux* and *s150/MyPublication*), meaning that the Compact author/article identification process needs to be done manually. The verification process became more automated in January 2018 and now enables Approval Managers to verify the articles via their *Author Approval Service (AAS)*. Furthermore the new feature ensures an automatic transmission of the DOIs to the institutional

reports and also reduces the email communication between the OA verification team, affiliated institutions and the Production team.

2. Overview of the verification process

2.1.1. Workflow Overview

External journal workflow, created by Veronika Spinka and Julia Thran 2017 and updated by M. Blaess 2017

2.1.2. Check list with responsibilities

Identification/Verification procedure	Responsible team
Step 1. Manual check of Compact in-scope articles : to check article parameters and if the article is in-scope to inform the OA verification team	The External Publishing Editor
Step 2. Article Verification via the Insert feature: Insert the article Check the article approval/rejection status Send reminders for verification Forward the article status to the External Publishing Editor	OA Verification Team
Step 3. Final steps after the article verification Inform the author about the article rejection or approval In case of approval to add the respective funding note if the customer is from MPG or AT or respective FI institution Open Choice (OC) charge (APC)	The External Publishing Editor

3. Identification/Verification process

3.1. Step 1. Manual check of Compact in-scope articles

The External Publishing Editor has to verify the author’s and article’s eligibility to be covered under the Compact agreement. If the article is eligible for Compact, please inform the author immediately.

3.1.1. Article Parameters

Please check the following parameters to determine if the article is Compact eligible:

Parameter	Requirements
Corresponding author’s affiliation	<p>Check if any of the corresponding authors of the article are affiliated with one of the Compact partner institutions.</p> <p>When checking, please refer to the Appendix of this document: <i>“Participating Institutions”</i>.</p>
Article type	<p>Check whether the article type is covered by the agreement. As each Compact partner has different criteria, please refer to the table below summarizing the eligible article types.</p> <p>When checking, please refer to the table in point 3.1.2 below: <i>“Overview of article types and licenses accepted under the Compact agreements”</i>.</p>
Article license	<p>Check whether the Article License is accepted by the Compact agreement (CC BY or CC BY-NC).</p> <p>When checking, please refer to the table below: <i>“Overview of article types and licenses accepted under the Compact agreement”</i>.</p>

3.1.2. Overview of article types, licenses and OA Policy accepted under the Compact agreements

Agreement	Eligible article types	Eligible license(s)	OA Policy ¹
Netherlands	OriginalPaper ReviewPaper BriefCommunication ContinuingEducation	CC BY CC BY-NC	“Compulsory OA”
United Kingdom	OriginalPaper ReviewPaper BriefCommunication ContinuingEducation	CC BY	“Compulsory OA” for: <ul style="list-style-type: none"> • Cardiff University • University of Liverpool • University of Salford • University of Southampton • University of Sussex • Aston University • Imperial College London “Opt out Policy” for the rest
MPG	OriginalPaper ReviewPaper	CC BY	“Compulsory OA”
Austria	OriginalPaper ReviewPaper BriefCommunication ContinuingEducation	CC BY CC BY-NC	“Opt out Policy”
Sweden	OriginalPaper ReviewPaper BriefCommunication ContinuingEducation	CC BY CC BY-NC	“Compulsory OA”
Finland	OriginalPaper ReviewPaper BriefCommunication ContinuingEducation	CC BY CC BY-NC	“Compulsory OA”
Hungary	OriginalPaper ReviewPaper BriefCommunication ContinuingEducation	CC BY CC BY-NC	“Compulsory OA”
Poland	OriginalPaper ReviewPaper BriefCommunication ContinuingEducation	CC BY CC BY-NC	“Compulsory OA”

¹ **“Compulsory OA”**: The author must choose Open Choice.

“OA Opt out Policy”: The author can opt out from Open Choice.

3.1.3. Article type definitions²:

Please make sure that the article type is chosen from the below list of four types of articles (otherwise the article can't be inserted into the Author Approval Service (AAS)).

Article type	Definition	Most frequently used article categories
OriginalPaper	<ul style="list-style-type: none"> - standard article - peer reviewed - case report about own new results of research - theoretical and empirical research - can also be referred to as Research Article, Original Article, Original Research, Scientific Letter - defined as an article containing original, scientific content (and is not just a personal message) - presentation and distribution of new own results 	<ul style="list-style-type: none"> - Research - Research Article - Original Article - Original Paper - Original Research - Case Report
ReviewPaper	<ul style="list-style-type: none"> - standard article - peer reviewed - systematic collection, summarization and critical analysis of current research/ knowledge - summary of specific research - also be referred to as Review Article, Review - updated overview - usually not presenting new own results but summary of specific research 	<ul style="list-style-type: none"> - Review - Review Article - Review Paper
BriefCommunication	<ul style="list-style-type: none"> - standard article - peer reviewed - short article submitted for rapid publication - not usually reviewed that exhibits the same structure as a standard article - also be referred to as Short Communication - fast distribution of important Content 	<ul style="list-style-type: none"> - Short Communication - Brief Communication
ContinuingEducation	<ul style="list-style-type: none"> - article forming integral part of further education (usually medical) - for training, learning, (adult) education - also be referred to as Educational Case Report - to improve skills of recipient 	<ul style="list-style-type: none"> - Continuing Education

3.1.4. Next steps

- ➔ If the corresponding author is affiliated to one of the Compact partner institutions and the article is in scope, the External Publishing Editor needs to send an email with all required information to the OA verification team (oa.verification@springer.com – please attach the article PDF and put the External Publishing Editor of each journal in copy).
- ➔ When contacting the OA verification team, please use the following template providing detailed article information:

Subject: <DOI> OC verification request <insert Compact agreement>	
Journal Title	
Journal ID	
Article Title	
Article Type³	
OA License	
Corresponding author	First and last names:
	E-mail:
Corresponding affiliation	Institution:
	Department:
	City:
	Postcode: (if applicable & quoted in the article)
ORCID	(if applicable & quoted in the article)
Funder Name	(if applicable & quoted in the article)
FunderID	(if applicable & quoted in the article)
GrantNumber	(if applicable & quoted in the article)
A PDF of the article is attached./Article link is:	

3.2. Step 2. Article Verification via the Insert feature

- ➔The OA verification team will add article information into the Overview request list to the “*External workflow + PJs*” tab.
- ➔The OA Verification team will insert articles into the *Author Approval Service (AAS)* of the respective Compact institution via the Admin Tool, *Insert feature*.
- ➔The institution should verify the article via their AAS. If this is not the case, OA verification team will send reminders for verification to Approval Managers manually:
 - Every 3rd – 5th business day (3 reminders)

³ Please choose the article type „OriginalPaper“, if a research article contains original research.

- If the article is not verified within 9 working days: OA Verification team sends a List with unverified articles to the OA Coordinators and the respective Coordinator will send the final reminder to the Approval Manager
- ➔ The OA Verification team should check in the *Overview request list* the article verification status in the “Articles in AAS” tab and forward it to the respective External Publishing Editor (Publishing Editor in CC).

3.3. Step 3. Final steps after the article verification

3.3.1. Possible scenarios

Institutional decision	Action to be taken by the Publishing Editor
<p>OA rejection You can also create your own template for this issue</p>	<p>Please inform the author about the rejection (template below)</p> <p>Subject: DOI and article title Dear [author], Your article has now been verified by [institution] and Springer Nature. Unfortunately you are not eligible to publish Open Access under the Compact agreement, either because you are not affiliated or because the article or license type is not supported by the agreement. Please refer to http://www.springer.com/gp/open-access/springer-open-choice/springercompact for further information. You have now the possibility to opt for Open Choice individually or agree to the Copyright Transfer Statement instead. Please let us know how you want to proceed by replying to this mail within 7 days.</p>
<p>OA approval You can also create your own template for this issue</p>	<p>External Publishing Editor should immediately inform the corresponding author and request that they sign the OA License to Publish form. Additionally the Springer Publishing editor needs to be informed about the approval.</p> <p>Subject: DOI and article title Dear [author], Your article has now been verified by [institution] and Springer Nature. We would like to inform you that you are eligible to publish Open Access under the Compact agreement. The APC charge can be covered under the Compact agreement. Please refer to http://www.springer.com/gp/open-access/springer-open-choice/springercompact for further information. Please sign the OA License to Publish form as soon as possible so we may proceed with the article publication.</p>

3.3.2. Copyright holder

If an article has been approved the Copyright holder should be **The Author(s) YEAR**.

3.3.3. Open access funding note

Please note: if the corresponding author is affiliated to an Austrian (AT), MPG or selected FI Compact partner institution and the article is approved to be published under Compact agreement, the **Open access funding note** needs to be provided in the PDF of the article in the **Funding section**, according to the following guidelines:

Agreement	Institutions	OA Funding note
MPG	All	Open access funding provided by Max Planck Society.
	Center of Advanced European Studies and Research (caesar)	Open access funding provided by Center of Advanced European Studies and Research (caesar).
AT	All	Open access funding provided by [name of the Austrian institute].
FI	Aalto University Abo Akademi University (ABO) Finnish Environment Institute (SYKE) Hanken School of Economics Lappeenranta University of Technology (LUT) National Institute for Health and Welfare (THL) Natural Resources Institute Finland (LUKE) Social Insurance Institute of Finland (KELA) Technical Research Centre of Finland (VTT) University of Eastern Finland (UEF) including Kuopio University Hospital University of Helsinki including Helsinki University Central Hospital University of Jyväskylä (JYU) University of Lapland University of Oulu including Oulu University Hospital University of Turku (UTU) including Turku University Central Hospital University of Vaasa (UVA) Finnish Medicines Agency Novia University of Applied Sciences	Open access funding provided by [name of the respective FI institution].

3.3.4. Open Choice (OC) charge (APC)

If the article has been approved by one of the Compact partner institutions, please ensure that the APC payment is covered under the institution’s Compact agreement and that the author has not been invoiced.

If the article has been rejected by one of the Compact partner institutions but the author would like to pay the APC, please ensure that the APC form is sent to the author and the invoice is generated.

4. Further information

For further information please get in touch with Margarita Bläß, OA Coordinator: margarita.blaess@springer.com

For verification queries (reminders, invoicing, and inserted articles), please contact the OA Verification team: oa.verification@springer.com
