## **Call for Papers**

# **Special Focus on Deep Learning for Computer Vision**

A special focus of the SCIENCE CHINA Information Sciences (SCIS, IF: 2.188) will be dedicated to new progresses in deep learning for computer vision. Prospective authors are invited to submit their original unpublished research and application contributions. The main purpose of this special topic is to publish the state-of-the-art deep learning algorithms and technologies for computer vision. Topics of interest include:

- 3D Reconstruction
- Action Recognition
- Dataset and Evaluation
- Image Segmentation
- Image Classification
- Instance Segmentation
- Network Architecture
- Object Detection
- Object Tracking
- Retrieval
- SLAM
- Vision + Language

#### **Submission**

The papers should be edited in the SCIS template, and should be submitted online through the manuscript submission system of the SCIENCE CHINA Information Sciences. The submission website is: <a href="https://mc03.manuscriptcentral.com/scis">https://mc03.manuscriptcentral.com/scis</a>. You should choose Special Topic on Deep Learning for Computer Vision (2019). Information and guidelines on preparation of manuscripts are available on the journal website: <a href="http://scis.scichina.com">http://scis.scichina.com</a>.

### **Important Dates**

Submission deadline: August 31, 2019

First-round decision notification: 1 month after submission

First online publication: 1 month after acceptance (can be indexed in SCI)

Publication: January 1, 2020
