Contents

Special Issue on Social Media Computing and Natural Language Processing

- A survey of quantum language models..... 1467
Peng ZHANG, Xindian MA & Dawei SONG
- An empirical review of language learning based on the micro-artificial grammar-learning paradigm 1487
Libo GENG, Li YANG & Yiming YANG
- Towards creative language generation: exploring Chinese humor generation..... 1497
Hongye TAN, Zhen YAN, Ru LI & Yimin JING
- Heterographic pun identification model based on multi-dimensional semantic relationships 1510
Linhong XU, Hongfei LIN, Ruihua QI & Liang YANG
- Knowledge-representation-enhanced question-answering system 1521
Bo AN, Xianpei HAN & Le SUN
- Combining entity co-occurrence information and sentence semantic features for relation extraction..... 1533
Yudan MA, Yi ZHAO, Jing JIN & Huaiyu WAN
- Disease name recognition based on syntactic and semantic features 1546
Yunqi HE, Suwen LIU, Longhua QIAN & Guodong ZHOU
- Rumor detection in social media based on a hierarchical attention network..... 1558
Xiangwen LIAO, Zhi HUANG, Dingda YANG, Xueqi CHENG & Guolong CHEN
- Decentralized cascade dynamics modeling 1575
Jinhua GAO, Yue LIU & Xueqi CHENG
