

**Special Focus on Big Data-Driven Intelligent Software Development for Onsite Programming**

LSTM-based argument recommendation for non-API methods.....190101(22)  
Guangjie LI, Hui LIU, Ge LI, Sijie SHEN & Hanlin TANG

Quality assessment of crowdsourced test cases .....190102(16)  
Yuan ZHAO, Yang FENG, Yi WANG, Rui HAO, Chunrong FANG & Zhenyu CHEN

An analysis of correctness for API recommendation: are the unmatched results useless? .....190103(15)  
Xianglong KONG, Weina HAN, Li LIAO & Bixin LI

A quantitative benefit evaluation of code search platform for enterprises .....190104( 3 )  
Zhan SHI, Jie TANG, Hao YU, Yongxu XING, Zhiwei LIU, Wei BAI & Tao LI

A data-driven approach for recommending UI element layout .....190105( 3 )  
Yonghao LONG, Xiangping CHEN & Yuting XIE

Code line generation based on deep context-awareness of onsite programming .....190106( 3 )  
Chuanqi TAO, Panpan BAO & Zhiqiu HUANG

**Special Focus on Driver Automation Collaboration and Augmentation in Automated Driving**

Driver-automation shared steering control for highly automated vehicles.....190201(16)  
Jun LIU, Hongyan GUO, Linhuan SONG, Qikun DAI & Hong CHEN

Investigating the dynamic memory effect of human drivers via ON-LSTM.....190202(11)  
Shengzhe DAI, Zhiheng LI, Li LI, Dongpu CAO, Xingyuan DAI & Yilun LIN

A probabilistic risk assessment framework considering lane-changing behavior interaction.....190203(15)  
Heye HUANG, Jianqiang WANG, Cong FEI, Xunjia ZHENG, Yibin YANG, Jinxin LIU, Xiangbin WU & Qing XU

Data-driven optimal cooperative adaptive cruise control of heterogeneous vehicle platoons with unknown dynamics.....190204(12)  
Xiulan SONG, Feng DING, Feng XIAO & Defeng HE

Investigating long-term vehicle speed prediction based on GA-BP algorithms and the road-traffic environment .....190205( 3 )  
Yufang LI, Chen REN, Hongwei ZHAO & Guoping CHEN

**RESEARCH PAPER**

Rényi divergence on learning with errors .....192101(13)  
Yang TAO, Han WANG & Rui ZHANG

Finite-time control for a class of hybrid systems via quantized intermittent control .....192201(16)  
Xiaolin XIONG, Xinsong YANG, Jinde CAO & Rongqiang TANG

Active switching multiple model method for tracking a noncooperative gliding flight vehicle.....192202(19)  
Tianyu ZHENG, Yu YAO, Fenghua HE, Denggao JI & Xinran ZHANG

A parameter formula connecting PID and ADRC .....192203(13)  
Sheng ZHONG, Yi HUANG & Lei GUO

A partial information linear-quadratic optimal control problem of backward stochastic differential equation with its applications .....192204(13)  
Pengyan HUANG, Guangchen WANG & Huanjun ZHANG

Learning impedance control of robots with enhanced transient and steady-state control performances .....192205(13)  
Tairen SUN, Long CHENG, Liang PENG, Zengguang HOU & Yongping PAN

Controlling the depth of a gliding robotic dolphin using dual motion control modes.....192206(14)  
Jian WANG, Zhengxing WU, Min TAN & Junzhi YU

Hybrid beamforming design for mmWave OFDM distributed antenna systems .....192301(12)  
Yu ZHANG, Dongming WANG, Yiming HUO, Xiaodai DONG & Xiaohu YOU

Quantum algorithms of state estimators in classical control systems .....192501(12)  
Kai LI, Hongyi DAI & Ming ZHANG

**POSITION PAPER**

Future vehicles: learnable wheeled robots .....193201( 8 )  
Deyi LI, Nan MA & Yue GAO

## LETTER

On the $k$ -error linear complexity of $2p^2$ -periodic binary sequences .....	199101( 3 )
Zihua NIU, Can YUAN, Zhixiong CHEN, Xiaoni DU & Tao ZHANG	
Output feedback control for mobile robot systems with significant external disturbances.....	199201( 3 )
Kang WU, Jinya SU & Changyin SUN	
Principal component analysis and belief-rule-base aided health monitoring method for running gears of high-speed train.....	199202( 3 )
Chao CHENG, Xinyu QIAO, Wanxiu TENG, Mingliang GAO, Bangcheng ZHANG, Xiaojing YIN & Hao LUO	
Distributed gradient-based sampling algorithm for least-squares in switching multi-agent networks .....	199203( 3 )
Peng LIN & Hongsheng QI	
Robust variable normalization least mean $p$ -power algorithm .....	199204( 3 )
Kui XIONG, Yu ZHANG & Shiyuan WANG	
Improved evolutionary algorithm and its application in PID controller optimization .....	199205( 3 )
Dewen QIAO, Nankun MU, Xiaofeng LIAO, Junqing LE & Fan YANG	

## Information for authors

*SCIENCE CHINA Information Sciences (Sci China Inf Sci)*, cosponsored by the Chinese Academy of Sciences and the National Natural Science Foundation of China, and published by Science China Press, is committed to publishing high-quality, original results of both basic and applied research in all areas of information sciences, including computer science and technology; control science and engineering; information and communication engineering; microelectronics and solid state electronics, etc. *Sci China Inf Sci* is indexed in Science Citation Index Expanded (SCIE), Engineering Index (EI), Journal Citation Reports/Science Edition (JCR), Academic OneFile, Astrophysics Data System (ADS), CSA, Cabells, Current Contents/Engineering, Computing and Technology, DBLP, Digital Mathematics Registry, Earthquake Engineering Abstracts, Engineered Materials Abstracts, Gale, Google, INSPEC, Mathematical Reviews, OCLC, ProQuest, SCOPUS, Summon by Serial Solutions, VINITI. *Sci China Inf Sci* is published monthly in both print and electronic forms.

Authors are recommended to use *Science China's* online submission services. To submit a manuscript, please go to [www.scichina.com](http://www.scichina.com), create an account to log in <http://mc03.manuscriptcentral.com/scis>, and follow the instructions there to upload text and image/table files.

All submissions will be reviewed by referees selected by the editorial board. The decision of acceptance or rejection of a manuscript is made by the editorial board based on the referees' reports. The entire review process may take 90 to 120 days, and the editorial office will inform the author of the decision as soon as the process is completed. If the editorial board fails to make a decision within 90 days, please contact the editorial office.

Authors should guarantee that their submitted manuscript has not been published before and has not been submitted elsewhere for print or electronic publication consideration. Submission of a manuscript is taken to imply that all the named authors are aware that they are listed as coauthors, and they have agreed on the submitted version of the paper. No change in the order of listed authors can be made without an agreement signed by all the authors.

Ethical responsibilities of authors: Authors should refrain from misrepresenting research results which could damage the trust in the journal and ultimately the entire scientific endeavour, and follow the COPE guidelines on how to deal with potential acts of misconduct.

Disclosure of potential conflict of interests: Authors must disclose all relationships or interests that could influence or bias the work. The corresponding author will include a summary statement in the text of the manuscript in a separate section before the reference list.

Once a manuscript is accepted, the authors should send a copyright transfer form signed by all authors to Science China Press. Authors of one published paper will be presented one sample copy. If more sample copies or offprints are required, please contact the managing editor and pay the extra fee. The full text opens free to domestic readers at [www.scichina.com](http://www.scichina.com), and is available to overseas readers at [link.springer.com](http://link.springer.com).
