**Citation** Title for citation. Sci China Inf Sci, for review

---

Please use this sample as a guide for preparing your article. Please read all of the following manuscript preparation instructions carefully and in their entirety. The manuscript must be in good scientific American English; this is the author's responsibility. All files will be submitted through our online electronic submission system at [HERE](#).

The examples at the bottom of the .tex file can help you when preparing your manuscript. We appreciate your effort to follow our style [1,2].

The first section introduces new features of your open-source dataset/tool/experimental platform. (1) Is the open-source dataset/tool/experimental platform special for a certain research area? Is the dataset difficult to obtain? Is the experimental platform hard to setup or construct? (2) Have you done any research on this dataset/tool/experimental platform? How about the results? (3) How about the influence of this dataset/tool/experimental platform? (4) Is there any com-

parison with relevant dataset/tool/experimental platform?

*Usage.* This section gives the usage of the open-source dataset/tool/experimental platform.

*Access methods.* Please write down the access methods of the open-source dataset/tool/experimental platform.

**Acknowledgements** This work was supported by the National Natural Science Foundation of China (Grant Nos. 00000000 and 11111111).

**Supporting information** Appendix A. The supporting information is available online at [info.scichina.com](#) and [link.springer.com](#). The supporting materials are published as submitted, without typesetting or editing. The responsibility for scientific accuracy and content remains entirely with the authors.
